

Interview Questions

Each year we appear to have a number of surprises that leave both seniors and supervisors unhappy. The interview process is designed for both of you to get to know each other and to make sure that you know what you are getting yourself into when you leave here in April.

In order to help you in this we have come up with some questions for you to ask during your interview. First present your resume, discuss your interest, answer any questions, and then make sure that you know what you are getting into.

- Have you worked with interns before?
- What exactly can I do in this situation?
- What would a typical workday look like? How many people will I be in contact with in the workplace? May I be involved in a variety of tasks?
- I understand that entry level; often-clerical work is involved, but will I have the chance to observe other more significant work in order to learn about your profession?
- How much time would you have to guide me in understanding your profession?
- Do you feel that you have time for this?
- What is the dress code for working here?

Thank them for their time.
