First Day of Classes

I. Vector Training

The following modules are assigned each year via an email from Vector Training. They are due by **Friday, August 28, 2025**. If you have recently completed each of the four modules as part of your new hire or rehire steps yet still receive an email, please let HR know. Rather than waiting for the invite, you can also use this [Vector link](#) to get started. Log in with your email address, no password needed. No need to send HR your certificates of completion!

1. Bloodborne Pathogen Exposure Prevention Course

Bloodborne pathogens are infectious microorganisms in human blood that can cause disease. This course is designed to provide an overview of the dangers posed by bloodborne pathogens and steps you can take to protect yourself and others from exposure.

2. Child Abuse Mandatory Reporting

This course provides an overview of mandatory reporting requirements regarding child abuse and neglect and states the legal responsibilities.

3. Cybersecurity Overview

This module discusses cybercrimes and the insidious methods cybercriminals use to obtain money and information.

4. Understanding Boundaries

This course is designed to identify opportunities for prevention through policies and practices that protect both staff and students, and to review the responsibilities of staff members as mandatory reporters of child abuse.
